

For our daughter company in Peachtree City, Georgia we have the following positions for the NAFTA area vacant. If you are convinced that in the underneath job description we are looking for exactly your profile please do not hesitate to contact us by e-mailing a short resum e:

Product Manager

Expanding the Thermal Management product range is our focus, both for passenger cars and trucks. Together with the product managers of our sales departments in Mexico and USA you will develop by taking into consideration the guidelines set by the PM center in Schwaebisch-Hall, Germany. You have experience with NAFTA markets regarding A/C and E/C products and are able to set the product mix accordingly.

A solid technical background in Thermal management products secures your quality orientation. Minimum 5 years of experience in a comparable position along with the will to set standards and become a valuable team member makes you our ideal candidate. This requires a strong personal organization and commitment, as well as excellent communication skills. You do not fear market changes and adequate challenges but much rather regard those as chances for continuous improvement.

Interested? Then now it is your turn. We would appreciate you sending us a complete resum e (along with your salary requirements)
